*How much food should I get?*  
*This is the most ask question we get!*  
*A few tips...*

-Plan enough for most people to take a little of each item.  
-Our servings are estimated at appetites that are sampling but assuming a small number of guests may just eat like it's their last meal

-If you know you have big eaters, plan for some of the items to be heartier and order a little more of those-such as our crowd fav Mac and cheese!

-Don't order for the one or two people who don't like most foods or have a lot of allergies. In most situations we can make a small amount just for that person, customized.

-Grad parties-assume all of the family will eat at least once and half of the kids will eat, unless you know they will definitely eat.  
**Need some help figuring it all out? Just ask!**
