How much food should I get?

This is the most ask question we get!

A few tips...

-Plan enough for most people to take a little of each item.

-Our servings are estimated at appetites that are sampling but assuming a small number of guests may just eat like it's their last meal ☺

-If you know you have big eaters, plan for some of the items to be heartier and order a little more of those-such as our crowd fav Mac and cheese!

-Don't order for the one or two people who don't like most foods or have a lot of allergies. In most situations we can make a small amount just for that person, customized.

-Corporate versus personal parties-assume all of the family will eat at least once and half of the kids will eat, unless you know they will definitely eat.

Need some help figuring it all out? Just ask!

Wraps and Sandwiches
