How do I keep my family party Covid Safe this year?

-Put a small chalkboard sign, asking people to sanitize their hands before touching any of the serving utensils.

-Have your guests wear a mask coming through any type of buffet that is self service

-Hire a college student or two on break to serve the food to your guests

-Purchase a bulk amount of Plastic Silverware. Have the items at each dish to allow the guest to only use a fork or spoon to dish out the item and then keep that to eat with, rather than using universal serving utensils.

-Ask your guests to please not attend if they have been exposed to or are feeling Covid symptoms.

-Limit your guests to households who you trust have been following Covid Guidelines.

**These are all just some suggestions based on safe events that we are offering based on daily questions from our clients!*
